

ASLA Invasive Subcommittee Industry Questionnaire

1. First please review the complete list of plants evaluated at the LICH website:

http://www.lichawaii.com/Downloads/Invasive/HASLA_survey.pdf

If you feel strongly that the ASLA Invasive Subcommittee has made a preliminary decision which is not in line with your views, please provide your comments directly to Christopher.a.dacus@hawaii.gov no later than 9/30/07.

It would be helpful if you could provide justification on the economic, ecological, environmental, public health, medicinal, historic, community, cultural, tourism, or unique aesthetic value of the plant.

2. Do you feel a plant that has unique aesthetics but not other redeeming characteristics that is potentially invasive should be used?

_____ Yes _____ No

3. Do you feel a plant which is low maintenance but not other redeeming characteristics [ie Wedelia] that is potentially invasive should be used?

_____ Yes _____ No

4. Do you feel a plant which is invasive but so widespread that no eradication work is being performed [ie Strawberry Guava] should be used?

_____ Yes _____ No

5. What do you feel is the best approach for potentially invasive plants that the industry has valid reasons to continue to plant. Please rank 1 to 5, with 1 being your first choice.

_____ Refrain from planting from sensitive environs.

_____ Continue to plant with no restrictions.

_____ Set a sunshine date in the future to stop planting [ie 2015].

_____ Develop a sterile version.

_____ Develop an equal alternative.

6. The ASLA Invasive Subcommittee struggled with a position on the following 25 plants. We would appreciate your view on whether we should continue to plant or stop planting these species. Also if there is a varietal which is more common than the straight specie.:

<u>Botanical Name</u>	<u>Common name</u>	<u>DO NOT PLANT</u>	<u>CONTINUE PLANT</u>	<u>Popular Varietal</u>
<i>Ajuga reptans</i>	Common Bugleweed			
<i>Alocasia cucullata</i>	Dwarf Elephant Ear			
<i>Asparagus densiflorus</i>	Asparagus Fern			
<i>Asparagus setaceus</i>	Common Asparagus Fern			
<i>Asystasia gangetica</i>	Chinese Violet			
<i>Axonopus compressus</i>	Broadleaf Carpet Grass			
<i>Bauhinia monandra</i>	Pink Orchid Tree			
<i>Buddleja davidii</i>	Orange Eye Butterflybush			
<i>Casuarina cunninghamiana</i>	Cunninghamia Beefwood			
<i>Chrysophyllum oliviforme</i>	Satin Leaf			
<i>Cinnamomum camphora</i>	Camphor Tree			
<i>Clerodendrum quadriloculare</i>	Bronze Leaved Clerodendrum			
<i>Cryptostegia madagascariensis</i>	Madagascar Rubber Vine			
<i>Cyathea cooperi</i>	Australian Tree Fern			
<i>Dieffenbachia seguine (outdoors)</i>	Dumbcane			
<i>Duranta erecta</i>	Golden Dew Drop			
<i>Eugenia uniflora</i>	Surinam Cherry			
<i>Hedychium gardnerianum</i>	Kahili Ginger			
<i>Heliconia psittacorum</i>	Parrot's Beak			
<i>Jatropha gossypifolia</i>	Belly-Ache Bush			
<i>Lantana montevidensis</i>	Trailing Lantana			
<i>Liriope spicata</i>	Creeping Lilyturf			
<i>Spathodea campanulata</i>	African Tulip Tree			
<i>Sphagneticola trilobata</i>	Wedelia			
<i>Syngonium podophyllum</i>	Arrowhead Plant
